JAYA BEULAH J

FRONT-END WEB DEVELOPER | AI & COMPUTER VISION ENTHUSIAST

Puducherry, India | beulahkingston2005@gmail.com | Phone: +91-9791993111
LinkedIn: linkedin.com/in/jaya-beulah-j | GitHub: github.com/jayabeulah

PROFESSIONAL SUMMARY

Driven Computer Science & Engineering student specializing in **Front-End Web Development, Artificial Intelligence, and Computer Vision**. Proficient in engineering responsive web applications and integrating real-time AI solutions using **React.js, Python, Flask, and modern web standards**. Experienced in full-lifecycle web development with a dedicated focus on UI/UX optimization, web accessibility, and high-performance cross-device user experiences. Proven student leader with hands-on experience coordinating campus recruitment drives and leading technical community initiatives.

EDUCATION

Rajiv Gandhi College of Engineering and Technology 2023 – 2027 | Puducherry, India

Bachelor of Technology (B.Tech) in Computer Science and Engineering

- **Cumulative GPA:** 8.5 / 10.0
- **Key Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Web Technologies, Database Management Systems, Computer Networks, Software Engineering.

INTERNSHIP EXPERIENCE

ShineCraft Technology April 2026 – September 2026 | Puducherry, India

Web Developer Intern

- Architecting and developing the company's official corporate web application from scratch using **React.js, HTML5, CSS3, and JavaScript**.
- Designing highly accessible, responsive UI/UX components and optimizing cross-device rendering across 10+ screen breakpoints.
- Collaborating closely with cross-functional development teams through the entire Software Development Lifecycle (SDLC) to streamline build pipelines and optimize front-end page load performance.
- Ensuring modern web standards, cross-browser compatibility, and optimal SEO structure throughout all web modules.

VPS Code Builders July 2025 – August 2025 | Puducherry, India

Web Developer Intern

- Built and deployed interactive, fully responsive web interfaces utilizing **HTML5, CSS3, and JavaScript**.
- Implemented modern UI/UX design practices to significantly enhance layout fluidity, user engagement, and site navigation.
- Enhanced website responsiveness and systematically resolved cross-browser rendering bugs, resulting in improved usability across desktop, tablet, and mobile platforms.

KEY TECHNICAL PROJECTS

AI-Powered Augmented Object Learning Web Application Academic Capstone Project

Technologies Used: Python, Flask, OpenCV, YOLOv8, Groq API, HTML5, CSS3, JavaScript

- Engineered an interactive web application leveraging live webcam video stream processing and computer vision models.
- Implemented **YOLOv8** for real-time object detection and integrated **Groq API** to dynamically generate and display rich contextual learning details with minimal latency.
- Structured a clean, intuitive, and responsive front-end interface designed to foster interactive, visual learning for students.
- Built custom HSV color detection pipelines using **OpenCV** to expand multi-modal object identification capabilities.

Corporate Web Application — ShineCraft Technology Industry Internship Project

Technologies Used: React.js, HTML5, CSS3, JavaScript (ES6+), Modern UI/UX Design

- Re-architected and completely modernized the official corporate website to elevate brand identity, digital presence, and overall platform responsiveness.
- Engineered clean, reusable React component structures, successfully reducing DOM rendering overhead and improving overall site performance.
- Adhered strictly to modern WCAG accessibility guidelines and responsive design patterns across all viewports.

LEADERSHIP & CAMPUS INVOLVEMENT

Training & Placement Cell 2025 – Present

Placement Student Coordinator

- Serve as the primary liaison between college administration, visiting corporate recruiters, and 300+ final-year engineering students to coordinate recruitment drives.
- Organize and manage end-to-end logistics for campus recruitment sessions, pre-placement talks, written assessments, and technical interview panels.
- Assist students with resume building, interview readiness workshops, and operational drive coordination for top visiting technology firms.

Tux GLUG FOSS Club 2025 – Present

Joint Secretary

- Spearhead open-source awareness workshops and technical seminars on FOSS (Free and Open Source Software) tools and Linux environments for student developer communities.
- Collaborate with executive team members to organize technical hackathons, coding competitions, and hands-on developer bootcamps on modern web tech stacks.

TECHNICAL & SOFT SKILLS

Programming & Web:	HTML5, CSS3, JavaScript (ES6+), React.js, Python, C
AI & Frameworks:	Flask, OpenCV, MediaPipe, YOLOv8, Groq API Integration
Developer Tools & Systems:	VS Code, Figma, Git, GitHub, Linux / GNU Tools
Core Specializations:	Front-End Engineering, Computer Vision, Artificial Intelligence, Responsive UI/UX Design
Certifications:	NPTEL Certification – Cloud Computing (Score: 68%)
Languages Spoken:	English (Professional Working Proficiency), Tamil (Native)
Key Soft Skills:	Stakeholder Coordination, Team Leadership, Event Management, Technical Communication, Problem Solving, Adaptability
